Identify Numbers to 20

Point to each number as you count aloud with your child.

Next, say a random aloud from the page aloud
to your child and ask them to point to it.

Assess if your child can identify each number by doing this.
If your child identifies all of the numbers correctly, move on.
If not, keep practicing with them and gather their weaknesses
until they do recognize them all and then move on..

1 2 3 4 5 6 7 8 9 10

11 12 13 14 15 16 17 18 19 20

Write Numbers to 20

Have your child trace the numbers from 1-20.

You can reuse this page again and again for practice with this.

When you feel they are ready, have them write them on their own.

1 2 3 4 5 6 7 8 9 10

11 12 13 14 15 16 17 18 19 20

Name: _____
Date: _____

Teaching Notes:

Identify & Write

Numbers to 20

Your child should be able to see number and tell you what it is (identify it).

Your child should also be able to write the numbers up to 20. Teach them how to form the numbers and have them trace and practice writing them like you would for handwriting with letters.
